* While many colleges and universities list the weight of their courses in credits, Penn uses a course unit (cu) system. Most courses at Penn are worth 1 cu (with the exception of lab courses, which are typically worth 1.5 cus, and mini-courses, which are worth 0.5 cu).

** Students may use no more than 1 cu of AP/IB credit within each General Education Distribution category: Social Structures; Language, Arts, and Culture; and Science and Technology.

Consult Penn InTouch at <https://sentry.isc.upenn.edu/intouch> for an automated curriculum planning worksheet.

Undergraduates are given flexibility in their schedules to allow them to pursue academic interests within Wharton and beyond. It is important to remember that there is no standard sequence of classes. Students will have differing schedules depending on a variety of factors, including AP/IB/A-Level credits, transfer credits and study abroad courses. Enrollment in a joint degree or dual degree program will also affect student schedules.

Below is a sample of a typical undergraduate course sequence. Detailed information about all of the requirements is included in this section of the Handbook. Please remember that this is only an example, and should not necessarily be your own course plan. It is important to meet with your academic advisor each semester to discuss your interests and academic plans.
